

Abhinav Mishra

Final Year B.Tech CSE Student | Data Science Intern

Email: abhikumarmishra958@gmail.com | GitHub: [Abhimishra798](https://github.com/Abhimishra798) | LinkedIn: linkedin.com/in/abhinav-mishra-a09b71205

Education

Maharishi Markandeshwar University, B.Tech in Computer Science and Engineering, 2023-2027.
CGPA: 8.2/10, no active backlogs.

Experience

Data Science Intern, Celebal Technologies (Current). Working on machine learning and deep learning projects including ML pipelines, image classification, text generation with RNN/LSTM/GRU, autoencoders, and retrieval-augmented generation systems.

AI/ML Intern, Edunet Foundation. Built an E-Waste Image Classifier using TensorFlow and Streamlit for automated waste category detection.

AI Web Development Intern, InAmigos Foundation. Worked on integrating AI capabilities into web applications.

Projects

AutoInsight AI: A vehicle insight platform built with Django REST Framework, React, MySQL, Supabase, and TypeScript.

Smart Leads Dashboard: A lead management dashboard built with React, Node.js, MongoDB, and Docker for containerized deployment.

Crypto Tracker: A real-time cryptocurrency price tracking application built with React and the CoinGecko API.

Tesla ML Pipeline: An end-to-end machine learning pipeline analyzing Tesla delivery data using XGBoost and time series forecasting techniques.

Customer Intelligence System: A customer segmentation system using Random Forest, XGBoost, K-Means, and DBSCAN on socioeconomic data, with an interactive HTML dashboard.

Skills

Programming Languages: Python, Java, JavaScript, TypeScript. Machine Learning: Scikit-learn, XGBoost, TensorFlow, PyTorch. Web Development: React, Node.js, Django, Spring Boot. Databases: MySQL, MongoDB, Supabase. Tools: Docker, Git, GitHub, Google Colab.

Certifications and Activities

Completed the HENNGE coding challenge involving recursive Python problem solving and a TOTP HMAC-SHA-512 submission script. Applied to the Google Student Ambassador program at MMDU.
