Ghaziabad, Uttar Pradesh – India

PROFESSIONAL SUMMARY

Final-year B.Tech Computer Science student (2027 batch) with hands-on experience in Full-Stack Development, Data Science, and AI/ML. Skilled in React.js, Next.js, Django REST Framework, Node.js, Express.js, MySQL, PostgreSQL, MongoDB, Python, and Java. Experienced in designing scalable REST APIs, database optimization, cloud deployment, and machine learning model development. Proven ability to build production-ready web applications and AI-powered solutions through internships, hackathons, and real-world projects. Seeking Software Development Engineer or Full-Stack Developer opportunities.

EXPERIENCE

• Celebal Technologies – Virtual Internship

May 2026 – Present

Data Science Intern

- Performed data preprocessing, exploratory data analysis, and predictive modeling using Python, Pandas, NumPy, and Scikit-learn.
- Developed data analysis pipelines using Pandas, NumPy, and Scikit-learn for preprocessing and model development.
- Collaborating in a professional development environment using Git/GitHub and industry-standard project workflows.
- Strengthening practical understanding of Machine Learning concepts, data analytics, and problem-solving through hands-on assignments.

• Edunet Foundation – Virtual Internship

July 2025

AI/ML Trainee

- Designed and deployed an AI-powered image classification web application using TensorFlow, MobileNetV2, Streamlit, and Python.
- Developed and deployed an image classification model for 10 e-waste categories using TensorFlow and MobileNetV2, achieving 90% classification accuracy through transfer learning.
- Implemented preprocessing, augmentation, model optimization, and deployment pipelines and Managed project version control using Git and GitHub.

EDUCATION

• Maharishi Markandeshwar University (MM(DU))

2023 – 2027

Bachelor of Technology in Computer Science and Engineering

Ambala, Haryana

- CGPA: 8.20/10

PROJECTS

• AutoInsight AI – Full-Stack Data Analytics Platform

2025

Tech Stack: React, Django REST Framework, MySQL, Supabase, Git

- Designed and implemented a scalable RESTful API backend with Django REST Framework, handling structured analytics requests with low-latency responses using optimized SQL joins and indexing.
- Developed 15+ reusable React components reducing UI development effort and improving maintainability.
- Designed relational MySQL database schemas with 15+ tables and optimized SQL joins, aggregations, and indexing for efficient analytics data retrieval.
- Collaborated with a 4-member team using Git branching, pull requests, and Agile workflows to deliver project milestones on schedule.

• Smart Leads Dashboard – SaaS Lead Management System

2026

Tech Stack: React, TypeScript, Node.js, Express.js, MongoDB, Docker, TailwindCSS

- Built and deployed a full-stack Lead Management SaaS platform featuring JWT authentication, role-based access control, and 20+ REST API endpoints.
- Developed advanced lead filtering, debounced search, backend pagination, sorting, and CSV export using scalable MongoDB query patterns and aggregation pipelines for dashboard analytics.
- Containerized frontend and backend services using Docker Compose and deployed across 2 cloud platforms (Vercel and Render).
- Implemented centralized error handling, validation middleware, and a responsive SaaS-style UI with reusable component-based frontend design.

TECHNICAL SKILLS

- Languages:** Python, JavaScript, Java, SQL
- Frontend:** React.js, Next.js (basics), HTML5, CSS3, Tailwind CSS, TypeScript
- Backend:** Django REST Framework, Node.js/Express, RESTful API design
- Databases & Storage:** MySQL, Supabase, PostgreSQL, MongoDB
- DevOps & Tools:** Git & GitHub, Docker, Linux CLI
- Core CS:** Data structure and Algorithms, Computer Networks, Database Management System (DBMS), Operating System, OOPS

CERTIFICATIONS

• Principles of Generative AI Certification

May 2025

• Frontend Web Developer Certification – Infosys Springboard

May 2025

• Oracle Certified AI Foundations Associate

Oct 2025

ACHIEVEMENTS

• Finalist – Hackchrono (48-Hour Hackathon, Chandigarh University, Mohali)

2025

• Finalist – Internal Smart India Hackathon (SIH) 2025

2025

• Hackureka Hackathon (GDSC, 2025)

2025
